

COVID-19 Patient Information

If you have been asked to come in person to the office for your appointment, please follow these instructions to protect yourself and our staff;

- Wear a mask
- Limit the number of people attending with you to a maximum of 1 (no one accompanying you is ideal, when possible)
- Do not arrive more than 5 minutes early to your appointment. If you are early, you may be sent away to come back at your scheduled appointment time
- Adhere to social distancing rules, keeping 6 feet away from staff members and other patients in the office
- Do not come to the office if you have any cold or flu like symptoms. You may be screened by staff for fever or other symptoms upon arrival

Some things we are doing to keep you and our staff safe;

- Screening questions online and at check-in
- Limiting and staggering patient appointments
- PPE with patient contact
- Masks worn by all staff
- Shields at desks
- Extra diligence for cleaning and sanitizing
- 6000 additional square feet of space in our new expansion for physically spreading out patient encounters

If you have a question for one of the staff or physicians, we ask that you call the office rather than come in as we want to limit the number of people in the clinic at one time.

We thank you for your continued patience, kindness and trust in RebalanceMD during this unprecedented time.
