RebalanceMD is offering a safe clinic for patients with urgent MSK issues.

Patients will be promptly and safely assessed by our Acute Injury team of Sports Medicine Physicians and will have access on-site to: Physiotherapy, Splinting, Bracing, Cast Removal, Orthopaedic Specialists (as required).

Treatment tailored to the patient's specific injury may involve any of the other services already offered at RebalanceMD and can begin immediately to maximize their recovery.

The Following Injuries Will Be Seen:

Ankle injuries
Knee injuries
Elbow injuries
Hip Injuries
Rotator cuff tears
Shoulder injuries
Non-displaced fractures
Contusions (bruises)
Uncomplicated lacerations

We Will Not Be Equipped For:

Head injuries
Neck/spinal injuries
Chronic pain
Chronic injuries
Displaced fractures
Trauma patients, obvious deformities – should present to the ER.
